FORMULA 1156 METAL SAFE CLEANER

Formula 1156 is a multi purpose cleaner for use in industrial plants, transportation facilities and food processing plants that require a thorough cleaning, metal safe product. It is a mild to use, but highly effective in removing a broad range of difficult to remove soils. Excellent for inside and outside cleaning of aluminum truck bodies, tanks, etc.

- * Rapid wetting and direct penetration lifts greasy soil from the surface. Superior emulsifying power holds the soil in suspension until it can be flushed away. Contains no insoluble matter and therefore rinses completely leaving no residues.
- * Will not plug heater coils. Holds hard water salts in solution and prevents build up of scale in the coil.
- * No irritating fumes even when used at a boil.
- * Safe - non-corrosive, non-toxic, non-flammable, biodegradable, non-hazardous, containing no caustics, chromates or phenols.
- * Safe to be used on: Aluminum, Chromium, Lead, Babbitt, Copper, Stainless Steel, Monel, Zinc, bearing materials, Galvanize, Nickel, Magnesium, Cadmium, Iron, Steel, Plastics, Rubber and Fabrics.

Formula 1156 is USDA approved as A1 meaning it is acceptable as a “ general cleaning agent for all surfaces.” This product is designed for use in food plants, dairies, bakeries, cheese and egg processors, breweries, soft drink bottling plants, canneries, frozen food plants, fruit processing plants, etc.
