Open Gear Lube - Extra Duty

Interlube's Open Gear Lube - Extra Duty is a very heavy-duty open gear lube suitable for very high loads and high temperatures. It is a formulated blend of extra heavy-duty synthetic base stocks with a combination of anti-wear, adhesion promoting, corrosion protective, and extreme pressure (EP) agents. It is designed for use on large heavily loaded open gears and on sliding surfaces of equipment used for construction, crushing, dredging, mining, milling, mixing and other applications.

Open Gear Lube - Extra Duty is a very adhesive formulation, which is completely water resistant and designed to stay on even under harsh outdoor conditions where it is openly exposed. It is very adhesive and tenacious in thin lubricating films - staying put on gears, slides, etc.

- * Very Heavy Duty Performance
- * Synthetic Formulation
- * Highly Adhesive
- * Water Resistant
- * Contains No Solvents
